## Fun Math Templates

# **THANKS FOR CHOOSING ONE OF MY TEMPLATES**

In the other file, you will find five math templates that you can use repeatedly. You can change the questions, the numbers, and the colors of some clipart (balloons, cupcakes, books, Easter eggs, and ice cream). The rest of the clipart (the kids and desk) is non-editable and is in black and white so that the little ones can enjoy coloring.

I hope you find value in them and that the kids can learn or reinforce their math skills and have fun at the same time.

If you have any questions, suggestions, or feedback, please don't hesitate to contact me, I will be happy to help you.

Here's my email: [perkylearning@gmail.com](mailto:perkylearning@gmail.com)
