

PRINTABLES

Hello there!

I hope these stickers help your kids to learn the basic shapes in a fun way!

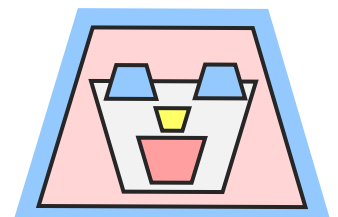

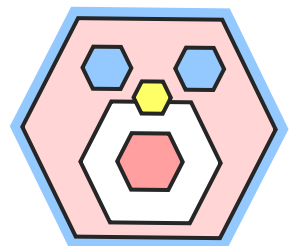

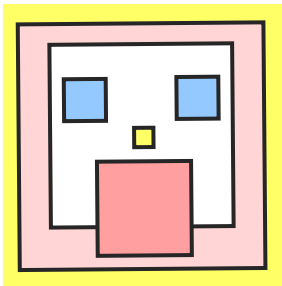

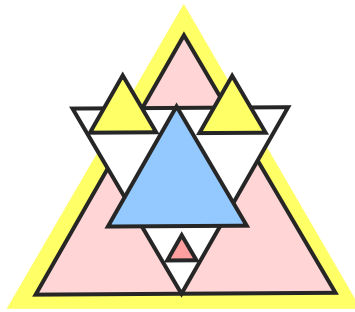

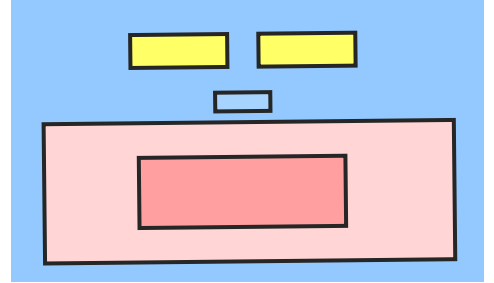

You can either print them on good quality sticker paper and cut them out or print on cardstock, cut them out and use glue to stick them.!

I've also included a separate sheet with the names of the shapes in case you want to use them for a matching activity, as well as a writing and coloring activity so you can reinforce the shapes concept.

Enjoy them and have a nice day!

*Remember that the colors could change slightly due to your printer or monitor settings.

Fun shapes stickers

Use the stickers as they are
or create a matching
activity with these labels!

SQUARES

STARS

TRIANGLES

HEARTS

HEXAGONS

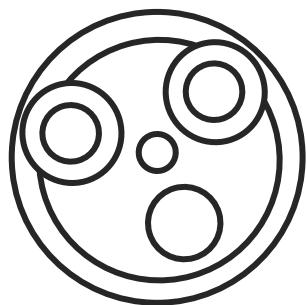

TRAPEZIUMS

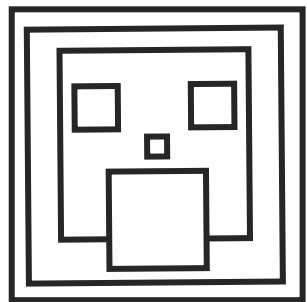

CIRCLES
